

Going to the Dentist

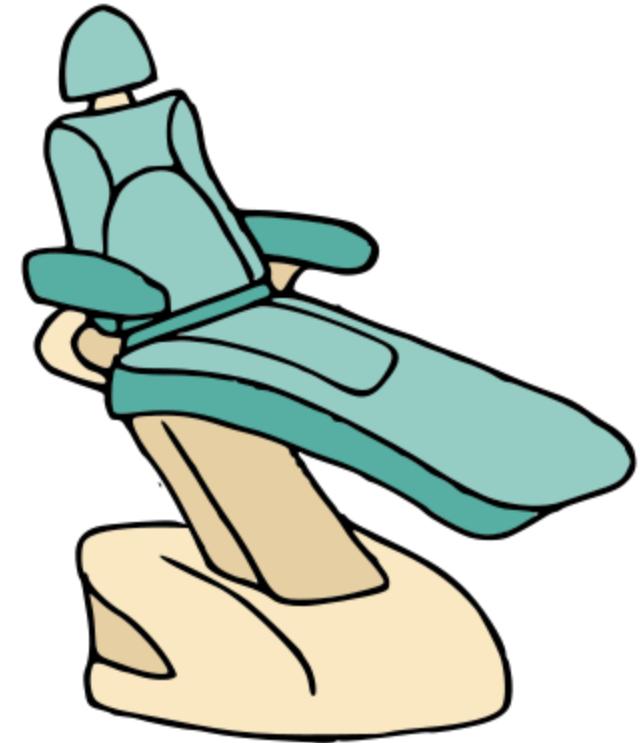

Soon, I will go to the dentist. The dentist helps keep my teeth clean and healthy

We will check in at the front desk. Next, we'll sit in the waiting room. I can \_\_\_\_\_ while I wait.

When my name is called, we will walk down a hallway to see the dentist.

There will be a big chair for me to sit on. The chair moves so I can lean back.

My dentist will say hi. My dentist must wear a mask and gloves to get ready to look at my teeth.

I will get a bib around my neck to keep my clothes clean. The bib may feel crinkly and make noise.

There will be a light shining on my mouth. If the light is bright, I can close my eyes or wear sunglasses.

The dentist will ask me to open my mouth. The dentist will check my teeth with special tools. I will try to lie still. I can wave my hand if I need a break.

When I'm done, I will get a new toothbrush.
