

Speech and Language Development Checklist

How to use this checklist: At each immunization or well-baby visit, ask the parents the appropriate questions. If a child is missing one or more of the developmental milestones, please refer parents to Language Express. If there are developmental concerns in addition to speech and language please consider referring for a developmental assessment. **DON'T WAIT AND SEE!**

For referrals the health professional or parent can call 1-888-503-8885, use the age-specific referral checklists or complete the Communication Check Up on our website at www.languauge-express.ca.
